Piduguralla, Andhrapradesh

Education

BTECH

Computer Science Engineering
(with specialization in AI/ML)
VIT - Amaravathi 2021-2025
Secured CGPA - 8.75

Intermediate:
Oxford Vit Academy
2019-2021
Percentage - 94.30

Skills

- Python
- Java
- R
- My SQL
- MATLAB
- Excel
- AI/ML techniques
- Web Development

(HTML, CSS, SQL, JavaScript, PHP)

- Presentation Skills

Projects

Object Classification in Images using VGG19, VGG16, Le net, Resnet, Google net, Alex net (Deep Learning Project)

Revolutionizing Communication for the Speech Disabled Persons with Sign Language Translation using machine learning

Online banking Website 

An web page which is can used as a Online Banking, In website itself we can login to user portal as well as admin portal, In which it contains transactions, transaction history, payments.

Stress Detection in Fishes

It is an hardware project, in which it can detect the stress in fishes with the help of sensors. The sensors check the quality of environment. Based upon change of environment the fishes feels uncomfortable. Where the dataset is collected in online of different environments with fishes stress, with the help of dataset using ML algorithm we can detect the stress.

Certification

MS Excel, Lernex-New Age of Learning

<https://lernx.io/Courses/MS-Excel/view.php?code=GhLWLrmG0dE>

Extra Circular Activities

2 Years continuous member in CSI SPM club and still

Core Member in IET club(Institution of Engineering and Technology)

Languages

- English
- German (basic)
